Carlos Manuel Escalona Villeda

FULLSTACK DEVELOPMENT / ARCHITECTURE / LEADERSHIP

Professional profile

Software professional with 30 years of experience in software development, solution architecture and technical leadership. I have built enterprise systems, integrated platforms and led multidisciplinary teams in demanding environments.

My work combines fullstack development, platform engineering, security, DevOps and continuous improvement. I focus on sustainable, verifiable solutions aligned with each organization’s actual needs.

Core capabilities

01
Solution architecture

02
Fullstack development

03
Technical leadership

04
Integration and DevOps

05
Applied security
