

PROFESSIONAL PROFILE

Engineering Manager and Solution Architect with 30 years of experience in software design and development. I combine deep fullstack expertise with technical leadership, architecture, automation, and a practical approach focused on turning complex problems into maintainable, scalable solutions aligned with business goals.

CORE STRENGTHS

- Software architecture and API design for enterprise systems and web platforms.
- Fullstack development with experience in PHP, JavaScript/TypeScript, Python, Dart, and SQL.
- AWS, Docker, and CI/CD for scalable solutions and consistent development environments.
- Legacy system modernization, platform integration, and complex problem solving.
- Strategic use of AI to accelerate development, analysis, validation, and automation without losing technical control.

SELECTED PROJECTS

ONIX

ERP for an importing company with ecommerce, DSV logistics integration, and electronic invoicing.

DELTA

Framework for rapid web application delivery with backend, frontend, REST API, WebSocket, chatbot, and CI/CD on AWS.

SELECTED STACK

PHP JavaScript TypeScript Python Dart SQL
Laravel Laminas / Zend Node.js Vue.js React Flutter
Tauri Astro Docker AWS MariaDB DynamoDB
SQLite

HOW I WORK

- Clean, structured, maintainable code; SOLID principles, patterns, and standards with purpose.
- Decision-oriented meetings, practical collaboration, and technical accountability.
- Critical thinking, autonomy, adaptability, and continuous learning.

PÍPILA

Platform for secure collection, validation, and storage of personal data, with login, DSAR, and SSO.

WINNER

Platform for promotional campaigns, contests, events, and lead generation.

PUBLISHED EXPERIENCE

- 2020–2025** **SoDigital**
Development Manager
Project planning and development, architecture, fullstack engineering, integration, DevOps, QA, and SEO; creation of development processes and teams.
- 2019–2020** **Ingenia Agency**
Backend Developer
Project planning and development, software architecture, and integration.
- 2018–2019** **Zenit Consultores**
FullStack Developer
Project design and development, leadership, analysis, and defect resolution.
- 2013–2018** **CAT Products**
Development Manager
ERP development and consulting in infrastructure, security, and ecommerce.
- 2012–2013** **Electronic Spacios Finder**
FullStack Developer
Web development, SEO, architecture, DBA, and DevOps.
- 2011–2012** **Idea Diseño**
FullStack Developer
Web development and technology solutions.
- 2009–2010** **Computación Integral HETI**
FullStack Developer
Websites, ERP systems, integrations, and web solutions.

AREAS OF EXPERTISE

- Software Architecture
- Fullstack Development
- DevOps
- CI/CD
- API Design
- E-commerce
- ERP
- Data & Integration
- AI-assisted Development
